4. []) BRIEFING I called Pete Bonner, ~~Senate Appropriations Committee~~ staff, with respect to the hearings scheduled for 2 and 3 March to get the background on what matters might come up in addition to the budget presentation. He said that we could expect questions on most matters which have appeared in the press lately, including [] the Horn of Africa, intelligence reorganization, and Executive Order 12036. 7. []) LEGISLATION Received a call from Pat Norton, on the staff of the Senate Select Committee on Intelligence, who said, in response to our query yesterday, that he would be able to plug into the SSCI computer the list of defined terms in the charter legislation and receive a printout of each instance in which such terms are discussed throughout the bill. We also discussed once again the schedule for hearings on the charter legislation, and Mr. Norton indicated these probably will begin around the first week in April and probably would be divided roughly into two phases--the first addressing the major issues relating to intelligence legislation, beginning with "big name" non-Government witnesses and, toward the end of this phase, Administration witnesses, and a second phase addressing more specific issues.
